Michigan State Grange on Railroads.

CHICAGO, Jan 24.—The Michigan State Grangers in Convention at Kalamazoo have adopted a resolution declaring that railroads are amenable to State regulation as much as plank and gravel road companies; that the Legislature has as much right to regulate their charges as to fix turnpike tolls or charges of millers for grinding grain. Accompanying this assertion of right is an appeal to railroad companies to remember that their interests are identical with those of farmers and not to kill by exorbitant prices the agricultural goose that lays the golden egg.

Strong Opposition to Secretary Richardson.

WASHINGTON, Jan 24.—The question of currency inflation continues to be the principal topic of interest here. The best considered opinion is that nothing can pass the House which in any way rebukes Secretary Richardson's issue of a portion of the legal tender reserve, or which shall restrict his power to issue the entire forty four millions. Chances favor the latter measure under the earnest recommendation of Boutwell and other Administration Senators, notwithstanding there is a strong current of Republican sentiment in the Senate opposed to inflation on the part of men who still hope that the rapid recuperation of money at all financial centers and increasing revenue receipts may yet induce Secretary Richardson to withdraw his appeals for more currency. Dissatisfaction with Richardson's administration of the Treasury is widespread and hourly increasing among the staunchest supporters of Grant. Nobody questions his integrity and scarcely anybody questions his incompetency to grasp the vital financial issues of the day. The rumors of his resignation have their origin simply in the concurrence of opinion that the honest and intelligent pressure against him must soon be heeded by the President.

OUR LETTER FROM SCOTLAND

HOW [illegible]—SHIPPING AND SHIP BUILDING FOR THE [illegible]—EMIGRATION [illegible]

DUNDEE, 31 December 1873.

TO THE EDITOR OF THE OREGONIAN:

Two or three weeks ago I wrote you a letter on emigration [illegible] showing you with what interest the few capitalists who here know anything of Oregon and Washington Territory are watching your progress in civilization and whether your people are to [illegible] or abuse [illegible] privileges. It has since occurred to me that your citizens might feel interested were I to enlighten them occasionally through the medium of the OREGONIAN as to what is doing in Great Britain towards the knowledge and progress of the North Pacific Coast. I have therefore resolved to send you in future a few letters from Bonnie Dundee. I would fain write you weekly, but my time is so much occupied with the United States Consular business at this port and other engagements that you must be content with a letter from me once a month only.

SHIPPING TO OREGON.

Having pointed out in my pamphlet on Oregon and Washington as Fields for Labor and Capital your wants in shipping, I forwarded many copies of this pamphlet to all the large British shipowners, and I am every day having letters in reply asking for further information as to your freight, [illegible] shipping and port and wharfage and other charges. But the greatest bugbear often thrown in my teeth is that bar at the mouth of the Columbia. The nonsense talked and the ignorance displayed among shipmasters and owners in this country as to that bar would truly astonish you. You would hear assertions made as to its terrors which have not the slightest foundation. Indeed I could not for a long time understand who circulated these false reports, but I am at last informed that they originate in your sister State. San Francisco seems to watch your State's success with a jealous eye, and I can truly bear witness that Oregon is reckoned here but a subsidiary portion of the Pacific coast paying tribute to and under the power of San Francisco. Fortunately I am armed with all the official and private reports as to the bar. I wish, however, your Portland and Astoria Chambers of Commerce would disseminate among British shippers the most authentic information which can be obtained as to the bar. In short, until you do this, how can your people expect steady and regular lines of ships between Great Britain and the Columbia river?

I had almost forgotten to mention that an Oregon Shipping Company is being projected in Scotland. The object is not only to purchase, build and own their ships—twelve in number, each of [illegible]00 to 800 tons—to trade regularly every month between Glasgow or Liverpool and Portland—but also to act as agents direct on behalf of Oregon wheat exporters or Farmers' Granges in the sale of produce in this country. The capital thought sufficient is $600,000, all to be subscribed here except one tenth—$60,000, or more if required—which is to be reserved for subscription among your farmers and others, and to be invested in these ships in *ten dollar shares*, spread over five hundred or more persons in Oregon. By this means it is calculated that the Oregon subscribers and Farmers' Granges will (1) forward their produce for sale to England by their own ships, (2) will exert themselves to secure the *preference* of all other freights, and (3) will derive handsome profits themselves out of their own and other freights, on the co-operative principle. This plan, I am told, has succeeded admirably in New Zealand, where it has been in operation nine years. That company's stock is selling to-day in English markets at [illegible] per cent. above par. The Company's agent in Oregon will be approved of by the Oregon subscribers, and the management in Scotland is to be placed in the hands of a wealthy ship owner of great experience and of the highest respectability, who will take the largest pecuniary interest in the company, and from whom I have derived these particulars. It seems everything is already concluded here, and the proposed company only awaits the co-operation of the Oregonians. I understand that a Dundeeman now resident in Portland, Mr. John Muir, will be instructed in a few days to wait upon your Farmers' Granges, wheat exporters and millers, to ascertain their views. But unless they promise to co-operate and support the proposed new line the promoters will not, I am told, proceed with the company. The profits of wheat ships sailing from Portland to England during the last three years have been immense, and hence a sure guarantee of the success of the company in a pecuniary point of view. Indeed, this is placed beyond doubt by such capitalists agreeing to take nine tenths of the whole capital, if the remaining tenth is subscribed in Oregon. Your Farmers' Granges and other exporters should not miss this opportunity of not only controlling a shipping company for their own interests, but also of getting their grain sold direct at the highest prices in the best and largest markets of the world, free from the intervention of San Francisco [illegible] The Oregon and Washington Trust Investment Company of this city will do much toward increasing the importance of the North Pacific coast.

SHIP BUILDING.

Would it not be well to suggest that the $60,000 which the Oregonians may subscribe toward the proposed Scottish Shipping Company be expended on one or two ships to be built in Oregon, and when launched [illegible] the company and placed alongside their other ten ships? Or perhaps [illegible] be built for them in Oregon. If so, these ships would, when in this country, [illegible] be closely inspected [illegible] would thus attract attention and show what Oregon can do in building ships. My remarks in my pamphlet that ship building can be conducted 20 per cent. cheaper in the North Pacific than elsewhere, I have been challenged in the Eastern States and in California. I have, however, [illegible] meetings with ship builders in Scotland. The result was [illegible] Butler from Messrs. [illegible] (who built the [illegible] steamers on the Clyde) to go to Oregon to commence on his own account. He left Liverpool for Portland some months ago, but he wrote me that his services were secured at San Francisco. I wish you would support my efforts in this direction by forwarding me reliable information demonstrating the truth of my assertion. I urged this matter more earnestly from the fact that [illegible] price (with no prospect of a decline) that ship builders are [illegible] to turn their attention to [illegible] and [illegible] the North Pacific [illegible] the Suez Canal [illegible] it is higher.

SHEEP FARMING.

In Great Britain [illegible] 000 [illegible] New Zealand [illegible] the Australian [illegible] days are gone [illegible] 000 [illegible] acre [illegible] attention [illegible] would be sheep farmers to Oregon [illegible] of sheep thriving in America all the year round in latitude 40 to 45. This arose from the popular error in this country [illegible] Mr. [illegible] a [illegible] Lord [illegible] farmer [illegible] except [illegible] Washington [illegible] He concluded at once that [illegible] he thoroughly convinced that were Southern and Eastern Oregon and Eastern Washington Territory known in Great Britain there would be a rush of sheep farmers to those places. The class who love the life especially are the younger sons of the British aristocracy and of wealthy capitalists, young officers of the Army and Navy. Convince them that Oregon and Washington Territory are great sheep fields, and most certainly will they settle there. I lately made the acquaintance of a young Scottish nobleman, the Right Hon. Walter C. Kerr, a son of the Right Hon. Lord Charles Lennox Kerr of [illegible] Hon. [illegible] sheep farming and [illegible] the [illegible] Mr. A. [illegible] Vancouver, (while here) he resolved to settle in Eastern Oregon. He is a relation of the Duke of [illegible] and left for Oregon on the [illegible] on the 5th of December. After meeting his brother-in-law, the Right Hon. the Earl of Dunraven, at Salt Lake City, he is to take the coach to Walla Walla and select a sheep location in that part of the country. He tells me that if he succeeds, as I have no doubt he will (as he is a young gentleman of great promise, strength and sound practical sense, and able to make himself generally useful), he will be able to draw after him many of the younger sons of British noblemen to settle in Oregon. Now my object in narrating these facts is to call your citizens' attention to the necessity of developing sheep farming as practiced on your coast. Select a sound practical sheep farmer (a Scotchman, if possible) who has been some years resident in Oregon (Mr. William Watt, [illegible] of Hillsboro or Mr. Allan Cameron of Cameron & Goodwin, for instance). Let him do as Lamb did for the river Plate: write a lengthy publication on sheep farming in particular and get it circulated *at the cheapest possible rate* in Great Britain. Get other gentlemen to verify the publication and show by statistics the profits, etc., of sheep farming yearly based on the last four years' returns. Do this, and your coast will in five to five years become as popular a field and as well known for sheep farming as New Zealand, over which Oregon has many advantages. The [illegible] pamphlet, but I cannot speak practically on that subject.

EMIGRATION.

My views on this important matter you have published already. His Excellency Governor Grover has been pleased to write me a very complimentary letter certifying to the truthfulness of the statements contained in my pamphlet, and thanking me for my continued services on behalf of Oregon. The Governor says he has carefully perused the pamphlet and with much pleasure too. After the publication of the Governor's letter I waited upon the owners of the various trans-atlantic steamship lines and solicited their services to further emigration to Oregon by publishing and distributing my pamphlet all over Great Britain with their various advertisements. They each received me very courteously, and I have pleasure in [illegible] that the White Star line, the National line, the State line and the Anchor line (the four largest steamship lines in the world) acceded to my request, and *each* has printed 5,000 copies (or 20,000 together) of this pamphlet *for free distribution in this country*, where previously your State never thought it worth while to circulate information at all. There will thus be 30,000 copies—containing thirty columns of closely printed matter—in actual circulation before this letter reaches you, including the Northern Pacific Railroad Company's edition of my pamphlet, for all which I have neither asked nor received the slightest remuneration. Those copies already distributed have attracted attention, and so great is the number of letters I receive *daily* asking more information and advice upon your coast that I am quite unable to answer them. This morning I have a letter from Glasgow informing me that a Scotch Presbyterian and Temperance Colony is being organized for Oregon—the managers of which craved an interview with me on Christmas Day to guide them where and when to settle. Six months ago I directed the attention of the Executive of the State of Oregon to emigration as a State undertaking, not by the reckless expenditure of money in need [illegible] On the contrary, my suggestion was for the State to print (either in Oregon or Great Britain) 50,000 copies of information and to forward the same by post from Great Britain, [illegible] addressed, to [illegible] farmers in the United Kingdom [illegible] persons who [illegible] I could supply. The total cost of so doing would not exceed $1,000, and if Washington Territory contributed a third of the cost the expense would be [illegible] to Oregon, while the results would [illegible] flow of the best element of the Anglo-Saxon race into the North Pacific coast. Not much without capital [illegible] too great [illegible] such persons to get to Oregon, but the farming class with a little capital, men whose [illegible] rents in Great Britain are too high to enable them ever to hope to lay by here a provision for their families, and without even the chance of owning acres of their own in this country. If, as my friend the Hon. Edward Young, Chief of the U. S. Bureau of Statistics, and [illegible] with whom I have corresponded on this subject, has proved in his Report on Emigration for 1871, that each person *without means* arriving in the United States contributes $800 [illegible] family of four persons yields [illegible] wealth to the State he settles in—how much more good would men of the class I refer to (possessing capital and labor combined) do to your State?

I think your State is not [illegible] used to grant assisted passages to agricultural laborers and domestics (as the British colonies now do), yet Government should at all events contribute [illegible] and have [illegible] printed and reliable information—the naked truth—that a man [illegible] your country, and requires [illegible] when the immigrants arrive, let the State [illegible] Boards of Immigration to furnish them with information and advice, and provide for them [illegible] until they have [illegible] up their [illegible] locations, so as to prevent them from being imposed on by the [illegible] unprincipled [illegible] immigrants at every port, thus carrying out the principles in operation at Castle Garden, N. Y., and as now [illegible] I am not an immigration agent. I do not act for any [illegible] in Oregon. The company which I represent, The Oregon and Washington Trust Investment [illegible] [illegible] values which [illegible] immigration [illegible] the British people [illegible] Oregon and Oregon [illegible] it will be known in this country [illegible] WILLIAM REID.

The entertainment given by the Gamma Sigma Society at the Congregational Church in Forest Grove last week was a decided success.

The late storm prostrated a large number of trees across the stage road from Corvallis to Elk City, and the travel in that direction is difficult.

Fifty persons and firms in Lane county pay taxes each amounting to over $100; eleven pay over $200 each; six over $300; two over $400 and one pays $1,361.50.

The late rains have swollen the South Umpqua river to the extent it is no longer fordable. The different ferries are doing profitable business in consequence.

Rev. Dr. K. Nelson of Corvallis will deliver his popular lecture at Eugene City next Thursday evening. The proceeds will go toward purchasing a bell for the Presbyterian Church at that place.

It comes to the ears of the *Register* that Albany hoodlums are in the habit of rolling parties found drunk in the streets of that town after night. Then parties ought not to be so found.

Forest Grove Lodge No 130 I O G T, at its last meeting, elected Mr. J. Stevenson, Mrs. M. E. Hosier and Mr. I. Bilyeu to the Temperance Union; Mrs. Nettie Waller and Mr. Cresswell to the Alliance.

The young people of The Dalles have organized a literary society. No person under 14 years of age nor any married individual can become an active member. The institution is flourishing and has fifty members.

A Lodge of Good Templars was organized at Lewisville, Polk county, last week by Levi Leland, Esq. There was some opposition to the enterprise but Mr. Leland did not back down. He is not one of that kind.

The editor of the *Mountaineer* has gone carefully through the acts of the Legislative Assembly of Oregon at the session of 1872 and tabulated the appropriations made by that body. The total amounted to $755,497.

Douglas county can boast of a lady who has been married nine times, has eight husbands living and is living with none of them. More than this, she has a daughter who is now 23 years of age, and living with her third husband.

The roof of a livery stable at Albany caved in on a span of horses and a wagon. Strange to say the horses were not seriously injured, the wagon being strong enough to hold up the great weight of the roof and the accumulated snow upon it.

There were 786 money orders issued from the Roseburg postoffice during the year 1873, amounting in the aggregate to $13,616.0[illegible]. The fees on the same were $81.48. The number of orders drawn on the office 286—value, $11,[illegible]0.60. The fees on this amount were $30.27.

A panting deer chased by hounds, came up to a woodman working near the Umpqua bridge last week, and after he had driven the dogs off the deer remained with him all day, allowing him to fondle it, and appearing to feel a lively sense of gratitude for the man's interference in its behalf.

A Mrs. Flournoy, of Douglas county, was driving a neighbor's hogs off her premises last week and the owner of the hogs was so exasperated because she called the dogs to help her that he pursued her and fired off his revolver, but did not hit anything. He says he was shooting at the dog.

An election was held in Forest Grove on Monday 13th inst. for the election of a new Board of Trustees. The following are the names of the Board: A. S. Watt, President; G. H. Collier, T. K. Smith, (re-elected), Wm. Kane and J. B. Matthews. A. J. Johnson was re-elected Recorder; Steven Harris was elected Marshal.

A promising young man who is attending the Willamette University is of late exhibiting something like symptoms of insanity. He seems to think the institution is a military academy and persists in rigging himself out in parade dress with brass buttons and gold trimming when going for a promenade. But his youth is not far away and his chance for recovery are probably good with gentle treatment.

The snow is reported quite deep in the mountain passes on the stage road south of Roseburg. In the canyon south of Canyonville a heavy wind preceded the rain, blowing down large trees and scattering branches in every direction and almost blockading the road. Wednesday night of last week [illegible] driver of the California stage in cutting his way through the barrier thus created, and he found it a not very pleasant job wading in snow two feet deep and chopping and hauling out of the road prostrate trees two and three feet in thickness. The stages have been unavoidably delayed since the commencement of the storm and now arrive at Roseburg from the south at from eight to ten hours behind time. Notwithstanding the rain and the snow the weather has not been very cold. At no time has the thermometer been below freezing point.

Dr. Hud[illegible] of The Dalles, who is waiting for the arrival of his medicines previous to taking his departure for the Malheur Indian Agency, to which place he has been appointed Surgeon, a few days ago undertook to cross the Klickitat mountains on foot. Late in the afternoon, on arriving at the top, he found himself soon enveloped in a thick fog, and darkness soon after coming on he was unable to tell how to proceed. After walking about in a small circle for some time to keep from freezing, a warm wind commenced blowing. Knowing that it was a Chinook wind, and therefore coming up the river, he shaped his course accordingly to return, and succeeded in reaching Mr. R[illegible]'s house between four and five o'clock next morning. We have only one store here, yet two are needed. We have no Grange as yet, but the organization of one is beginning to be discussed among the members of our Farmers' Club. We are in the midst of a thriving, intelligent and industrious farming community, and immediately upon the line which will be traversed by the road from Salem to Eastern Oregon, via the North Fork of the Santiam river, whenever that route shall be opened.

It is feared that much suffering has been experienced by stock east of the mountains during this last cold spell.

Linn Chenoweth informs the *Benton Democrat* that nearly all the fences around Halsey were blown down by the gale of Friday.

One farmer in Douglas county has recently lost over 100 lambs by the rapacity of the wolves. Others in the same district have lost many.

The officers of the different Granges in Lane county held a meeting in Eugene City on Tuesday of last week. A large number were in attendance.

Posters are scattered around in Corvallis promiscuously stating that some peddlers have been imposing cheap goods on the farmers of northern counties, representing them as of English manufacture.

From the *Plaindealer* we learn that the farmers of Douglas county have made arrangements by which they will be able to get their surplus oats to this market and large lots will be sent down in a few days.

The Corvallis *Gazette* says: While farmers in this locality are looking blue in consequence of the beautiful snow which hid for a brief period their farms from view, the farm buyers from Wisconsin, Iowa and Illinois are laughing in their sleeves at the prospect of buying farms "cheap."

The principal business in Eastern Oregon is stock raising. It now contains about 60,000 square miles, and upon this broad surface of fine pasturage there are at present 1[illegible]0,000 head of cattle, 100,000 head of sheep, 20,000 head of horses. This makes only about three animals to each section of 640 acres, or 170 acres of land for each animal to roam over.

At a regular meeting of Monmouth Grange No 4 P of H, the following officers were installed by James Eaton, County Deputy: Ira F. M. Butler, M; David Rohrer, O; Stephen Staats, L; Austin Hiett, S; Orville Butler, A S; H. M. David on, C; David Ireland, T; J. S. Churchill, S; J. S. Lishback, G; Ruth G. Gard, Ceres; Jenna M. Staats, Pomona; Dilla Butler, Flora; Maggie Butler, Lady Assistant Steward.

Of the 38,400,000 acres of land in Eastern Oregon not to exceed 100,000 have been plowed. The *Mountaineer* says: "After making reasonable deductions for lands appurtenant to homesteads it is within bounds to place the capacity of this region at one animal to every ten acres, or in other words 3,840,000 animals can be reared and kept in fine condition in Eastern Oregon. To thus stock the grazing land of Eastern Oregon an addition to its present amount of more than 3,000,000 of animals must be added."

Daniel Clark, Master of State Grange, writes the *Farmer* from Jacksonville January 19th as follows: "I arrived here on the 16th, organized a Grange the same evening with 30 charter members, with D. S. H. Buick Master and Welborn Beeson, Secretary. I have also organized a Grange at Jacksonville, with 26 charter members, Enoch Walker Master and R. A. Miller Secretary. The farmers in this section are alive to their own interests. It has been snowing and raining here for several days, and to-day it set in to snowing and the snow lies on. It is clear to-night and freezing. I start over the mountains south to-morrow evening. You may be sure I dread the trip. I have two more nights in the stage. I have appointed D. S. H. Buick Deputy for Southern Oregon."

The Secretary of Monmouth Grange writing to the *Farmer* says: "After installation our Lecturer, Stephen Staats, delivered an address appropriate to the occasion, replete with instruction and encouragement. The Grange then met in session and conferred the fourth degree on a class of twelve, after which all the members and visiting brethren were invited to partake of the feast prepared by the lady members of the Grange. By resolution of the Grange it was decided to jointly celebrate Saturday, February 21st, as Washington's birthday, and with the assistance of our sister Granges take into consideration the practicability of organizing a County Grange in this county, at which time it is proposed to have the assistance of speakers prepared with short addresses expressly for the occasion. Grangers and others invited. Polk is moving onward."

MONDAY MORNING, JANUARY 26, 1874.

WHAT IS TO BE DONE WITH IT?

The management of the Indians has long been one of the most perplexing subjects to which the Government of the United States has had to address itself. No policy yet tried has worked satisfactorily in all respects, and certainly it would appear there has been enough of experimenting to find out the best. There seems to be some disposition among those who have been supposed to possess peculiar resources of knowledge of Indian affairs to return to the plan of placing the Indians in the keeping of the War Department. How far this idea is or will be received with favor at Washington it is impossible to conjecture. Colonel Nesmith has introduced into Congress a bill to carry out the plan, and will no doubt urge its passage, as he has long been known to favor the abolishment of the Indian Bureau and the devolving of its duties upon the army. And the dissatisfaction with the present system has so much increased by reason of the Modoc troubles as to render the time especially auspicious for pushing forward the proposed change. The temper of the country toward the existing system is such that its advantages are lost sight of, and its defects exaggerated. Because through the incompetency of those who were appointed to administer the Indian affairs of Oregon, the lives of a considerable number of citizen settlers on Lost creek were sacrificed, some brave men butchered while on a mission of peace from the Government, and a very expensive Indian campaign made necessary, the demand is made for the abandonment of the entire policy under which these unhappy events occurred.

We have no disposition to question the sincerity of those who urge this change, but we must be allowed to doubt the correctness of their judgment. This idea of placing the Indians under charge of the War Department, is by no means new. Nor was the spasmodic effort of the President in that direction, which took place soon after his first inauguration, the first experiment of the kind in the history of the Government. The plan had a long and fair trial years ago, and experience dictated its abandonment. Then followed the system of organized rascality and plundering which prevailed before the civil war, and by which the native tribes were scarcely restrained from the commission of those atrocities which characterize them in their savage state, but were robbed of their property and debauched in their habits. The vices of civilization were introduced among them without its virtues. Reformation of the system was demanded, but the idea of keeping this branch of the public service under civil, as contradistinguished from military, authority was adhered to, and the plan now in vogue was devised. Before, however, there had been time to test its efficiency, the President, apparently under the influence of some sudden change of opinion, changed front on the Indian question, and suspended the authority of the Indian Agents, ordering certain designated military officers to proceed to the several agencies and enter upon the discharge of the duties of agents. This sudden and unexpected action was taken without waiting to ascertain the sense of Congress on the subject. It was undone just as suddenly. The army officers had not got warm in their new stations when another order came restoring the old order of things.

So the Peace Policy—the Quaker Policy—has been on trial less than half a dozen consecutive years. This is a short time in which to test the worth of a system of managing these wards of the Government, when in the very nature of things it is impossible that the good results of any system shall become fully manifest in less than twice that length of time.

It were idle to assert that the existing Indian policy is free from defects. It would be foolish to insist that it could not be improved. The partitioning up of the Indian tribes among the various religious sects has always seemed to us to be contrary alike to the spirit of Christianity and the genius of our institutions, and to promise but little if any possible advantages to the parties whose welfare was involved—whites or Indians. And the working of the plan appears to us fully to have justified the misgivings we have entertained in regard to this feature. And still, it can not be said that any very great specific evil, traceable directly to this source, has been developed.

And so is it true that incompetency will sometimes get into responsible positions under the present system, and that difficulties are liable to originate therefrom. This was painfully illustrated in the instance of our Modoc troubles. But compare the average character of the persons in charge of Indian affairs under the present system with that of those under the system which preceded it. The difference is just the difference between the average man who can command the best recommendation of the Christian churches for such a station and the average man who can perform efficient work for the politicians.

But would not the transfer of the whole matter to the War Department secure the service against dishonesty and incompetency? This question is asked with apparent seriousness by some intelligent persons. We have a very high appreciation of the officers of the United States army. They deserve the esteem [illegible] the best classes of society enjoy. But are they better than any other class, and are there no incompetent men among them? These questions must be answered in the affirmative before the position of those who expect to end the evils in the Indian Bureau by turning it over to the army can be maintained. If the Indians are merely to be kept as prisoners, then is the character of their keepers of less importance; but this is not their relationship to the Government. They are to be restrained, it is true, but this after all is merely an incident, a temporary incident it is to be hoped. The theory of the Government is that ultimately these people are to be civilized, humanized, christianized—a theory which the Government has no right to abandon. Can the army perform this work better, more rapidly, more efficiently and thoroughly than the men chosen and nominated thereto—even by the present method—by the Christian churches because of their supposed peculiar adaptation and aptitude for such a mission? We must be pardoned for being a little skeptical. Will there be no fortunes made in unjustifiable ways when the funds of the Indian service are permitted to pass through none but military hands? All the [illegible] and Howards are numerous. They are everywhere. Not all the army officers nor any large proportion are such, but there are enough of them, and they always find the places for which their talents fit them. They are the exceptions everywhere—in civil as well as in military life; but it requires only a few such exceptions to make a very bad showing. It ought to be something more than a single Modoc blunder that causes the Government to leave its present policy and adopt one that was tried and condemned long ago.

THE POLICE EXPENSES.

The question of the cost of the police of this city is attracting considerable attention. The expense of this department of the city government has increased with such rapidity since the inauguration of the present system, as to cause a very general feeling that something ought to be done to keep it within bounds. While we do not approve of the system, we can not deny that it is a vast improvement upon the old way of placing the police in the hands of the very classes who need most watching and restraint. That is just what the system of making the position of police elective must always result in. But there could be a plan of appointment without invoking the aid of the Governor, who does not reside in the city.

Still the objection to this mode of appointment arises more out of an idea of the abstract right of local self-government than out of any positive and practical evil that might result from this plan and not from any other. The system would work well enough, if the Commissioners could but realize the fact that the police has grown faster than the city. There is little more actual work necessary to be done in maintaining the peace and good order of the city now than there was a little over three years ago, when an increase of the police force from four to six men, including the Chief, was regarded as a measure of doubtful propriety. The city now has, if we are not misinformed, sixteen regular policemen besides Chief and two Captains. This force is more than twice as large in proportion to the population of the city as that of Sacramento, and more than three times as large as that of San Francisco. It is difficult to perceive why all this force is necessary, and it is not difficult to see that there are unusually strong reasons at this time why there should not be a single man under pay whose services are not indispensable. We believe the police force to be unnecessarily large and expensive, and that it ought to be cut down. The matter is exclusively in the hands of the Police Commissioners, and they alone can remedy the evil, or show that it does not exist.

After the foregoing was written, we received the communication in relation to police matters, which appears in another column of this morning's OREGONIAN. For want of time we have not, since this agitation commenced anew, given the subject a thorough investigation. It requires no investigation, however, to perceive the pertinence of the inquiry which the writer of this communication makes in regard to the moneys collected by the Police Judge. That officer does not, it appears, consider himself accountable to the public for public moneys that come into his hands.

Another pertinent inquiry is what has become of the action commenced by the City Attorney, under direction of the Council, against the Police Judge, for moneys of the city appropriated by that officer prior to last election? Has the City Attorney quietly permitted the action to die for want of prosecution, or has it got into the condition that other actions have got into, in the same court sometimes, just when it was to the interest of a certain crowd to secure as much delay as possible; has it been "taken under advisement" for a year or so? These questions ought to be pressed till they are answered.

The Philadelphia *Telegraph* takes a rather sombre view of the chances for the success of the Centennial. It says matters look worse to-day than some months ago; declares that the Legislative appropriation amounts to nothing, for the reason that the law providing therefor was unconstitutional, and opines that the adoption of the new Constitution has shut off all prospect of help from any town, city or borough in the Commonwealth. It adds that very little has been done by individuals thus far, and asserts that the enthusiasm of the people of Pennsylvania is dying out. In conclusion it suggests that an enterprise of this kind can not thrive on oratory and pamphlets. Upon the other hand we have before us a publication entitled "The Journal of the Exposition," the office of which seems to be to aid the Centennial Commission by circulating exhibits, statistics and opinions quite the reverse of the foregoing. It can not but be regretted that this feeling of distrust which [illegible] so plainly by the *Telegraph* is growing in the East. The New York *Times* [illegible] review [illegible] attributing the dissatisfaction to sectional jealousy and local pride. But it is hardly possible that a journal of standing and influence published in the city [illegible] scheme would be controlled by the motives assigned. It is possible, however, that the *Telegraph* is a little [illegible].

A correspondent of the San Francisco *Chronicle*, writing from Honolulu under date of December 27th, says that the news from Kona, where King William [illegible], [illegible] is to the effect that [illegible] King, and that his people [illegible] to the succession [illegible] is being canvassed. The favorite with the masses is David Kalakaua, and his most powerful rival is Mr. [illegible], of Bishop [illegible], Minister of Foreign Affairs under the present King. The latter candidate is supported by the office-holders and the American missionaries. It is said by the natives that King William is controlled in all important matters by the advice of foreigners, and while the people respect his amiable disposition and his love of justice, they are very anxious for a ruler who will [illegible]. Meantime [illegible] the correspondent [illegible] until [illegible] and we are enjoying perfect peace.

Archbishop Alemany has given, through the medium of a double-leaded interview with a reporter of the San Francisco *Chronicle*, a full summary of his opinion of the [illegible] Husbandry [illegible]. [illegible] The Archbishop [illegible] further. [illegible] Order. On the subject of Freemasonry [illegible] Archbishop Alemany spoke with [illegible] as follows:

Reporter—The Catholic Church has opposed Freemasonry. Now I have not heard that any of its imposed obligations are contrary to charity and Christianity.

The Archbishop—Not so far as you know, perhaps; not so far as thousands and thousands know; but we know that in the high degrees the members have to take obligations which are contrary to true charity and would crush Christianity.

It is because Archbishop Alemany is utterly unacquainted with the nature and teachings of the high degrees of which he speaks that he expresses an opinion so unwarrantable.

Dr. Kenealy, senior counsel for the Tichborne claimant, concluded his closing speech on the 14th inst. He claimed that the preponderance of evidence was overwhelmingly in favor of his client, and demanded a verdict for the claimant. The closing speech for the prosecution will be made by Mr. Hawkins; then comes the charge from the bench, and after that a verdict—perhaps.

This is the way in which the reconstructed Chicago *Times* speaks of the financial views of the unreconstructed New York *World*: "The rock-rooted organ of Tammany, otherwise known as the *World*, is sleepily but obstinately advocating a return to the old State bank system of supplying the country with currency."

THE POLICE SYSTEM OF PORTLAND.

ANOTHER VIEW OF THE QUESTION.

The *Bulletin* of Friday and Saturday last publishes many strictures upon the police management of our city, and among other things, equally untrue and prejudiced, asserts that the police force *cost the tax-payers $32,377 75* for the year 1873. The *Bulletin* could just as well have said $100,000 at once, and the sensation it desired to create would have been the greater perhaps. This false assertion of the cost of the police force for 1873 the *Bulletin* adopts from the tabular statement made out by Besser as Chairman of the Committee appointed by the Common Council and attached to their report. Each one of the amounts stated in this table for the several years the records show to be false. About two weeks since the City Auditor's annual report was published in the *Bulletin*. This report was a carefully prepared statement of the financial affairs of the city government for the year 1873, and was published in the daily papers for the information of the public. Under the head of "Police Fund," from which the expenses of the Police Department are paid, Auditor Caldwell says: "Special tax collected $16,442 97." But the editor of the *Bulletin* says it cost the tax-payers in 1873 $32,377 75. There seems to be a very large discrepancy between the City Auditor's account and Mr. Besser's statement indorsed by the *Bulletin*.

The discrepancy amounts to nearly $16,000, or nearly double the amount paid by the tax payers. Either Auditor Caldwell's report is wrong or the *Bulletin* has told a "whopper." It matters but little perhaps so far as Besser's character for truth and veracity is concerned, but you can settle this among yourselves.

There is, however, another money matter directly connected with this subject, not contained in the *Bulletin's* nor Besser's table of statistics, which, if it could be ferretted out and the money rightly applied, would have very materially lessened the cost of the police to the tax payers. It is something like this: By the reports filed by the Police Judge of the business transacted in his Court for the year 1873, he has taxed and collected fines and fees, exclusive of witness fees, amounting to *eleven thousand [illegible] hundred and twenty-two dollars and [illegible] cents*. Of this amount there is accounted for by the Auditor's report $4,674 10 paid to City Treasurer, and $530 paid to the county of Multnomah. Now what has become of the remaining *[illegible] thousand nine hundred and [illegible]teen dollars and [illegible] cents*, which the Police Judge has failed to pay the City Treasurer as required by section 158 of the City Charter?

If this money had been paid over to be applied as the Charter implies, the $6,918 12, deduction from the special tax of 1873—$16,442 97—would leave but $10,524 85 as the cost of the police to the tax payer, an amount not greatly exceeding the cost of the Marshal and his deputies in 1869 by the *Bulletin's* own statement.

In the Washington correspondence (Jan. 10th) of the San Francisco *Bulletin*, we find the annexed item concerning legislation for the Pacific coast:

Mr. Nesmith, yesterday, secured the passage by the House of a resolution calling for copies of all official correspondence and military orders relating to the recent Modoc war, which he asserts will lead to the disclosure of many speculative and fraudulent operations carried on, or attempted, by various parties in California and Oregon. Apropos of the Modocs, it may be mentioned that the Secretary of the Interior has sent in a communication asking Congress to appropriate $15,000 for their care and subsistence during the current fiscal year in their home in the Indian Territory. Out of this amount it is proposed to furnish them not only with food and clothing, but with seed and agricultural implements, with which it seems to be expected they will readily [illegible]. Mr. Nesmith has introduced a bill [illegible] the [illegible] breakwater at Port Orford, Oregon, and [illegible] [illegible] dollars for that purpose. It has [illegible] [illegible] [illegible] Engineer Department [illegible] at present [illegible]. Senator Kelly has introduced a bill for the relief of Charles W. Denton, of Oregon, directing the payment of $5,700 to him for the use and [illegible] of his land [illegible] by the military authorities from 1855 to 1860.

MONDAY MORNING JANUARY 26 1874

CITY.

CASE DISMISSED.—Last Saturday morning the case of State vs Miss Hodgdon, came up for trial in the Police Court Readers will remember that this lady was arrested some days previous on a charge of assault and battery preferred by Mr R R Thompson on the person of his son Frank Miss Hodgdon having had occasion to correct the boy in the public schools for some infraction of order The case was called on Wednesday but the defendant demanded a jury trial and the case was continued until Saturday. When the case was called in Court on Saturday the attorney on behalf of the State moved to dismiss the charge as the complaining witness had filed satisfaction and paid all costs of the suit Accordingly, the complaint was dismissed and Miss Hodgdon released at once. This case has been much commented on by the public, and knowing the humiliation and embarrassment the unfortunate occurrence has involved the parties concerned we forbear making any remarks, and would have refrained from alluding to the circumstance at all were it not a matter of legal record and hence in a measure, the property of the public.

SELLING LIQUOR TO MINORS.—Cecelia Levy, the proprietress of a low drinking saloon near the corner of Second and Pine streets was arrested a few days since charged with the offense of selling liquor to minors These minors consisted of neither more nor less than the daughters of the notorious Mrs Smith of Second street fame They are aged about 16 and 14 years respectively A few days ago these girls were found on the streets in a state of beastly inebriety, and taken to jail by the officers On being interrogated as to where they obtained the liquor, these model young ladies stated that Cecelia Levy had furnished them She was arrested on Friday but demanding a jury trial the case was continued until Saturday morning Accordingly the case came, and the defendant, who desired simple justice obtained the full measure. The jury, after hearing the testimony in the case, returned a verdict of guilty, and the court imposed a fine of $100 and costs The defendant did not take kindly to that sort of justice and so she gave bonds and took an appeal to the Circuit Court

STOPPED FOR REPAIRS.—We learn that the damages sustained by the barkentine *Portland* from colliding with the *Loyal Sam* a few days ago at Astoria, are not so extensive as were at first supposed Some of her rigging was torn out and carried away, but it did not prevent her from proceeding on the way After a few hours' delay, during which time the damage to the rigging was temporarily repaired, the *Portland* started to sea The damage sustained by the *Loyal Sam* was considerable A large hole was stove in the hull and her head gearing carried away The hole in the iron plating is large enough to allow a man to crawl in at As the facilities for repairing this beach are inferior at Astoria the vessel will be detained several weeks before she will be ready to proceed on her voyage. Before the *Portland* sailed, she settled the neat little bill of damages, so that everything is amicably and satisfactorily arranged between the two vessels

PRESENTATION.—Mr W K Badger was presented, last Friday evening, with a handsome gold charm of unique design and elegant workmanship It was presented by the members of Oneonta Tribe, I O R M, Mr A B Hallock made the presentation speech, which was responded to by the recipient in fitting terms The present was made of pure gold, intended to be worn on a watch guard, and bore the following inscription "Presented by the members of Oneonta Tribe No 4, Portland, Oregon, to W K Badger P S, January 23, 1874" Mr Badger, we learn, will take his departure from Portland on the steamer He proposes to enter permanently into business in San Francisco

MISSIONARY APPOINTMENTS.—The following are the missionary appointments for February for the Episcopal Church 1st, Port Townsend, Rev P E Hyland, 1st, Olympia, Rev J R W Sellwood 1st, Tacoma, Rev C R Bonnell 1st, Eugene City, Bishop Morris 8th, Seattle Rev P E Hyland 8th, Tacoma, Rev C R Bonnell, 8th, Kalama, Rev J R W Sellwood, 15th, Olympia, Bishop Morris 15th, Tacoma, Rev P E Hyland, 15th, Port Townsend, Rev C R Bonnell, 22d, Seattle, Rev C R Bonnell, 22d Tacoma, Rev P E Hyland, 22d, Kalama, Rev J R W Sellwood.

LANGUISHING.—S A Dray, a young gentleman extensively known in this community, was arrested on Saturday morning on two charges, one for general drunken and disorderly conduct, and the other for assaulting a *demimonde* known as Josephine Johnson The court did not temper justice with much mercy, but gave the young man the simple article without adulteration For the first offense he fined Dray $5, and for the second, $10 The young gentleman did not have small change convenient so he will subsist on prison diet for the next two weeks.

ROPE THIEVES.—Three men, named Christian Hansen, Michael Mooney, and Pat Lyons, alias Dublin, were arrested last week, being strongly suspicioned of having stolen a coil of rope from a ship in port. These men were arraigned in the Police Court, on Saturday morning, to answer the charge Each of the defendants waived an examination and was bound over, to await the action of the Grand Jury, in the sum of $250. In default, all three were committed to the County Jail

A HAM THIEF.—An old Celestial was caught on Saturday evening in the act of purloining a ham from the grocery of P A Eddy He was brought to the city jail but would give the officers no name the only satisfaction he gave was "me no sabe" to every question asked him The case will come up for trial this morning when John will learn several new kinks in legal jurisprudence

UNITARIAN CONCERT.

A most pleasant and profitable occasion was experienced last evening at the Unitarian Chapel, at the concert given there by the Sunday school pupils of that church As previously announced, the subject of the concert was that of "Truth" All the exercises—musical, literary, scriptural or otherwise—were illustrative of that subject The exercises of the evening were opened with prayer by the pastor This was followed by reading a portion of the Scriptures, designed to illustrate the beauty and power of Truth After this came recitations from memory of various passages of the Scriptures, all directly applicable to same subject by the different classes of the school Vocal music by the school followed, after which came a number of declamations, recitations, etc, by the pupils One of the most noticeable features of the evening was a solo sung by Lena Morgan, a little miss aged about seven years entitled "Hymn," which was rendered in splendid style and with good effect A reading by Miss Olds, and several other songs by the school came next Rev Mr Eliot, the pastor, delivered a short, forcible address to the children, in which he guarded them against the pernicious insidious effects of exaggeration and untruth, and encouraged and exhorted the children always to stick to the truth under any and all circumstances He illustrated his address with several interesting and appropriate anecdotes Dr J B Pilkington read "The Sailors Story," a nautical yarn spun about a little boy who had been smuggled on board a ship and who came near being hung to a yard arm because he stuck to the truth, despite the threats of the "stern mate" The recitation was rendered in a very creditable manner and with good elocutionary effect At the close of the recitation a musical selection was rendered by the choir, in which the audience joined The Chapel was densely crowded very many were compelled to stand during the exercises the seats being unable to accommodate them Throughout, the exercises were of a highly profitable and interesting nature, and afforded the large audience no little pleasure We hope these concerts may be repeated at an early day

POETRY UNDER DIFFICULTIES.

The following elegant poetical gem was received last evening through the mails No name but the indefinite initials S W L accompanied this valuable literary contribution True poetic merit which shines out conspicuously in each line induces us to publish the poem notwithstanding the author has seen proper to withhold his name Critical eyes and over refined tastes may discover some very slight discrepancies in rythm and orthography but still poetic license affords ample margin to cover all trivial defects We cannot forbear wishing that the inexorable rent collector may stay his avaricious hands until some philanthropic person can take up a subscription Here it is

When I shut my eyes
To hide the light of the skies
What do I see darkness there
in my face will stare
But still not darkness enough
to hide my troubles away

let it be ever so dark
or be ever so drear
Still there is something which in heart
has a constant fear
to my thought it rushes
As if to choke m

But still I go on
my mind is wandering and fearing
as though a ship of hard troubles were nearing
O what have I done
on this earth under the sun
that my troubles always run

I may try them to shun
But they will come always come
O why did god ever give to me life
They tell me that god is good and just
he may be when I am molded to dust

They tell me I will go to hell
But I think that is where I now dwell
For I have nothing on earth but hell
For my Father in a distant country dwells
an my Sister is an among strangers
and in the pearls of all dangers
my mother is Sickly not able to work
and I can find no work to do
to earn money for her support
It was only last night
that papers were served on us to leave the house
the reason was we could not pay the rent
God knows I tried hard enough to raise it
But no ry Cent

A NEW ATLANTIC CABLE PROPOSED.—A Washington dispatch of Jan 19th says An important bill was introduced in the House to-day to incorporate the Submarine Cable Printing Company, to lay and operate an Atlantic cable Many leading capitalists are interested in the measure. The enterprise is founded upon two inventions of W E Sawyer, a Washington journalist by which the present system of transmitting messages over ocean cables is trebled in its capacity. This increase will enable the Company to make a complete change in cable tariffs and this is provided for in the fourth section of the bill, as follows "That terms for the Government, and all commercial and private messages over the line or lines of said Company shall not exceed fifty cents a word"

WHAT TO DO WITH A BAD BOY.—The son (age 17) of a wealthy manufacturer in Monson, Massachusetts, having stolen his mother's ring and given it to a woman of bad character and after many other wrong doings, robbed his father's safe the citizens of the town have held a meeting, and solemnly resolved that the father should send his boy to the State Reform School, threatening, in case of refusal, to put him into the Penitentiary. It is rather an odd demand to make of an affectionate parent but perhaps the citizens of Monson think that they have a right to protect themselves against the lad's probable depredations

EXPLOSION OF A FURNACE.—A Pittsburg dispatch of January 19th, says "An explosion occurred at Dunbar Furnace, fifty miles from here on Thursday last One of the tuyres had been leaking for some days and on this day a new one was put in, but did not work satisfactorily When an examination was made, a terrific explosion took place killing one man His head was blown a distance of twenty feet from the body The receiver was blown to pieces and the roof of the casting house entirely blown off. Pieces of the receiver were blown fully a quarter of a mile

SUDDEN DEATH OF A DISTINGUISHED PREACHER.—A Cincinnati dispatch of Jan 15th contains the following

Rev Samuel Fisher of College Hill went out to the stable this morning and found his horse down He went as is supposed to a neighbor for help and fell dead on the way He was found by his daughter He succeeded Dr Beecher as pastor of the Second Presbyterian Church of this city and was also several years President of Hamilton College New York

THAT UNFORTUNATE SHIP.—A New York dispatch of January 19th says The Spanish ironclad *Arapiles* is said to have received considerable injury by striking on the rocks in East river, on the way to her present anchorage off the Battery and is making nearly six inches of water every 24 hours Her commander proposes to have her bottom examined by divers to day, and unless absolutely impossible will put to sea and trust to pumps rather than try further repairs at this port

One of the Vasquez gang was captured close to Millerton San Joaquin county recently by the forty vigilantes of Fresno county When captured he turned on his captors and said Some of you have stolen more cattle than I have money When they bound him to take him with them he remarked You might as well put the rope around my neck for I don't want to go among the Americans again I'm a goner anyhow

WIT AND JUSTICE IN MISSOURI

It is well known that some of the Judges in Missouri are very reluctant to enforce the law against ministers of the Gospel for exercising their profession without taking the oath and avail themselves of every pretense to discharge those who are accused. We tell the following tale as 'tis told us vouching for nothing.

Three ministers charged with preaching the 'glorious Gospel of the Son of God' were arraigned before the Judge. They were regularly indicted, and it was understood that the proof against them was very clear.

"Are you a preacher?" asked the Judge to one of them.

"Yes, sir," replied the culprit.

"To what denomination do you belong?"

"I am a Christian, sir." [With dignity.]

"A Christian! What do you mean by that? Are not all preachers Christians?"

"I belong to the sect usually called, but wrongly called Campbellites." [Not so much dignity.]

"Ah! Then you believed in baptizing people in order that they may be born again, do you?"

"I do, sir." [Decidedly.]

"Mr Sheriff, discharge that man! He is an innocent man! He is indicted for preaching the Gospel, and there isn't a word of Gospel in the stuff that he preaches; it's only some of Alexander Campbell's nonsense. Discharge that man!"

"Are you a preacher?" said the Judge, addressing the next criminal.

"I am, sir," said the miscreant.

"Of what denomination are you?"

"I am a Methodist, sir." [His looks showed it.]

"Do you believe in falling from grace?"

"I do, sir." [Without hesitation.]

"Do you believe in sprinkling people, instead of baptizing them?"

"I believe that people can be baptized by sprinkling." [Much offended.]

"Do you believe in baptizing babies?"

"It is my opinion that infants ought to be baptized." [Indignantly.]

"Not a word of Scripture for anything of the kind, sir!" shouted His Honor. "Mr Sheriff, turn that man loose! He is no preacher of the Gospel! The Gospel is the truth, and there is not a word of truth in what he preaches! Turn him loose. It is ridiculous to indict men on such frivolous pretenses! Turn him loose!"

Methodist disappears, not at all hurt in his feelings by the judicial abuse he had received.

"What are you, sir?" said the Judge to the third felon.

"Some people call me a preacher, sir." [Meekly.]

"What is your denomination?"

"I am a Baptist." [Head up.]

His Honor's fell, and he looked sober and sad. After a pause, he said:

"Do you believe in salvation by grace?"

"I do."

"Do you teach that immersion only is baptism?"

"That is my doctrine."

"And do you baptize none but those who believe in Jesus Christ?"

"That is my faith and practice."

"My friend, I fear it will go hard with you. I see you are indicted for preaching the Gospel, and it appears to me that by your own confession you are guilty."

Baptist looked pretty blue.

"May it please your Honor," said the Baptist's counsel, springing to his feet, "that man never preached the Gospel. I have heard him say a hundred times that he only tried. I have heard him try myself."

"Mr Sheriff, discharge this man! He is not indicted for trying! There is nothing said about the mere effort! Let him go, sir. Turn him loose! Send him about his business. I am astonished that the State's Attorney should annoy the Court with frivolous indictments!"

Exit Baptist, determined to try again.

Court adjourned.

"God save the State and this Honorable Court!" exclaimed the Sheriff.

"Amen," said the three preachers.

And after all say we, as ridiculous as the story may seem, it has a moral. If the State has a right to prohibit the preaching of the Gospel, it has a right to decide what the Gospel is, and when this is done, we have a National Church, and the adulterous connection between the Church and State becomes complete.

SOME NEW STORIES ABOUT HORSES

A VERY OBEDIENT DOG

[New Orleans Republican.]

Late Tuesday night a stranger just for amusement, gave several bystanders specimens of his dog's acquirement. The master quietly, without gesture of any kind, told his dog to walk across the street, find a little wagon and get into it. Doggy obeyed, though reluctantly, as the wagon was a cart, but he finally complied. He was then told to hunt up a fire plug and mount it. His keen eyes searched a moment, and on the instant poor Tray pleased his owner. He was then commanded to hunt a lamp-post and put his fore feet on it. This done, he was told to go into the Pelican saloon, find a chair and sit in it, then to look up a beer barrel and stand on it, then to lie down and act like a poisoned dog. These orders were given in the most common place tone of voice, and most of the time the beast could not see his master, yet he obeyed quite as readily as a willing servant apparently understanding the English language very well.

A HORSE WITH A LONG MEMORY

[Lowell (Mass.) Courier.]

Many years ago Mr Abraham Dodge, of the town of Ipswich, Mass., owned a beautiful horse which was the pet of the family. He was admired by all who knew his playfulness and good qualifications. In the summer it was Mr Dodge's habit occasionally to have a frolic with his horse in his barnyard, then let him out alone, and he would go to the river, which was about one third of a mile distant, where he would bathe, then go to a common and roll on the grass, then with the freedom of air start for his home. His stable was renovated for him while he was gone and his breakfast put in his crib. If he met his master he would show some coltish pranks, bound for the stable, pull out with his teeth the wooden pin that fastened the door and rush to the manger where he expected to find his food. One night the horse was stolen from the stable. After the expiration of sixteen years Mr Dodge was at the tavern when a man drove a horse up to the door. Mr Dodge at once recognized his horse, and he told the driver his reason for believing it to be his. The man told of whom he bought the horse and said that he had owned him for several years. Mr Dodge claimed his horse, and it was finally agreed that if the horse would on being taken to his old stable go through the habit of bathing, rolling on the grass and pulling the pin from the stable door as above described, that Mr Dodge should have him. When the horse was let out into his old yard he reviewed the premises for a moment, then started for old bath tub, then for his green towel on the common, then to his old stable, pulled the wooden pin, won for himself a good meal and his old master his favorite horse. These facts as vouchsafed for by reliable old residents of the beautiful picturesque old town and show conclusively the long memory of our noblest animal.

Wheat in Liverpool by mail advices from San Francisco—Average California, 13s 10d@14s [illegible] club 13s [illegible]

The San Francisco *Commercial Herald* of the 15th inst after taking much pains to arrive at something like a correct statement of the amount of money employed in the banking operations of California furnishes the following synopsis as the result: Of the nine commercial banks operating in San Francisco the Bank of California occupies the foremost rank, both by reason of its larger operations and its recognized standing in all business communities throughout the civilized world. Its capital and deposits amount to $14 000 000, and its transactions are on a gigantic scale. The stockholders are all men of wealth and its affairs have been managed with ability. Next in rank is the London and San Francisco Bank limited. During the past year the Anglo Californian Bank has filled an important position and all its contemporaries have been measurably successful. Not one of them sustained the slightest abrasion from the financial shock which demolished so many Eastern banks. The united capital of the San Francisco commercial banks is about $20 000 000, controlling an equal amount of deposits, and if we add the $4 000 000 comprising the capital and deposits of savings institutions we have a working total of $60 000 000 in the city alone. Interior savings banks hold $10 000 000 of deposits, and by making a liberal allowance of $5,000 000 more for private interior banking capital we find a grand total of $100 000 000 of funds employed in the business of the State. The rates at which discounts have been made in the metropolis were 1@1¼ per cent. monthly in commercial banks, and 9@12 per cent. per annum on mortgage and State securities, in the savings institutions. The amount of dividends disbursed by banks of all classes during the past year was about $10 000 000, of which the savings banks paid in the neighborhood of $6 000,000.

Miscellaneous.

By mail we learn that flour at Manila, No. 2, was quoted at $7 [illegible] bbl, sugar extra $4 81 do superior $4 50; hemp $5 06; cordage $13 50@14. The Finzel was loading 750 tons sugar at Cebu for San Francisco, and the John O Gaunt had sailed for the same port with 18 400 piculs sugar.

Mail advices from Yokohama possess no additional interest. The different grades of tea were quoted in that market as follows: Good common $24@27, medium $29@32, good medium $34@37, fine $38@42, finest $4[illegible], choice $1[illegible].

From Hongkong we learn that California Flour was held in that market at $1 [illegible] for qr sacks and $6@7 for bbls. The stock was light and demand fairly active. No 1 China Rice $3 60@3 70 ₩ picul; White Siam [illegible] $3 [illegible]; Black Pepper $16 [illegible]; Cloves $[illegible]; Cassia $14 closing dull; Nut Oil $7 60; Quicksilver $170, Prepared Opium $5[illegible] 1 000 taels in advance. Exchange on London 4s 2¾d, for bank bills.

The official statement of the total value of the exports of domestic produce from the port of Philadelphia to foreign countries during the year 1873 makes the aggregate $20 643 106 being an increase of $9 188 386 over the total of the year 1872, which was $20 [illegible].

In establishing a SAVINGS DEPARTMENT this Banking Association has in view the benefits to accrue to a class of persons having small sums to loan by providing a safe place of deposit, ample security and fair rate of interest as well as to aggregate and bring into use idle capital.

For the safety of deposits in this Bank are pledged its entire capital and resources and also the personal liability of its Directors and Stockholders as provided by Section 12 of the National Currency Act approved June 3 1864, a greater security than that given by ordinary Savings Banks. Printed rules of the conditions upon which deposits are received may be had upon application at the Bank.

MEDICAL.

TO THE UNFORTUNATE.

NEW REMEDIES! NEW REMEDIES!

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, Skin Diseases, Fever Sores, and Ulcerated Legs [illegible] cured.

Dr. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe and has resumed practice in his Dispensary, 623 Kearney street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has [illegible] neither time nor money in seeking [illegible] which will enable him to increase the facilities for the relief of human suffering.

Horrible Diseases.

How many thousands of persons both male and female are there who are suffering out a miserable existence from the effects of secret indiscretions or from virus absorbed into the system! Look at their pallid emaciated and disfigured faces and their broken down constitutions disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Yet parents, guardians, friends attend to those who are suffering with any of these horrible disorders [illegible] they are cured if [illegible] to DR. GIBBON, a physician who has made private diseases his especial study for years, and is [illegible] to cure the most inveterate case, without mercury or any injurious drug. It is important to those who are afflicted, or to those who are interested in the welfare of the afflicted, to be careful of the many pretended doctors who infest all cities publishing their skill in curing [illegible] in a few days, imposing upon the public, using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self abuse. This solitary vice or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms unless combatted by scientific medical measures, viz: sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

Married Men,

Or those who contemplate marriage, who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them, nor delay to obtain immediate relief.

DR. GIBBON is responsible, and will give to each patient a written instrument binding him to effect a radical and permanent cure or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin in registered letter through the Post-office or through Wells Fargo & Co., a package of medicine will be forwarded to any part of the Union. All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn to certificates dupe the unwary. Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets, for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J F GIBBON, 623 Kearney street corner Commercial, San Francisco. Postoffice Box 1 957.

REMEMBER TO PUT BOX 1 957 ON THE LETTER. Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the DAILY OREGONIAN. jy6d4p
